Use Case for Nursing Informatics History Project

1. Name- “The Future” of Nursing Informatics

2. Version- 1.0

3. Goal- Use videos and/or transcripts from the Nursing Informatics History website to learn about pioneers vision for the future of the nursing informatics specialty.

4. Summary- The 33 Stories of the pioneers in nursing (Nurses and other professionals) informatics reveal how Nursing Informatics evolved over time and how these pioneers participated in that evolution. The interviews share first hand knowledge and perceptions about the specialty of Nursing Informatics now and their thoughts about the future. They share lessons learned that they want to pass on to nurses in or interested in Nursing Informatics. Each interview shows length of interview. Photo and short bio of interviewee on the webpage.

5. Primary Target/Actors - High school and college students, researchers and professionals

6. Triggers- Course assignment related to the future of Nursing and Nursing Informatics, professional development activity

7. Basic steps for use case:
