Experiences with use in "academic" EHRs for Education of Informatics Students

Saif Khairat, PhD
The need..

- **Education**
  - Graduate courses
  - Interprofessional Education

- **Research**
  - Data
  - Training
Setting up

• Installed VistA for Education
  – Virtual machine

• Reviewed existing Clinical cases

• Created new patient records
  – Use an existing Controlled Excel template
  – Data Loader Client
EHR Use

• VISTA is able to operate on a local machine or on a server
  – More than 200 pre-loaded cases
• Interdisciplinary Case-based exercises
EHR Humility and Competency
(De)Centralize EHR Training

Centralized
