Corporate Membership

Together, we improve health through informatics education, science and practice.
AMIA Corporate Members are committed to advancing professional growth within the industry, creating impact in health and healthcare, and enhancing leadership for the field.
Advancing Professional Growth for Our Members

Support the current and next generation of informatics professionals with AMIA, the leader in informatics education, professional development and training.

**DEVELOP employees as industry leaders through the most cutting-edge workforce training and education opportunities.**

- 10x10 Courses
- Conferences & Webinars
- Continuing Education
- Clinical Informatics Board Review Course

“Across my career, my ability to derive value from working with AMIA is unquestioned. I’ve been able to look to the organization to help me with key issues relevant to the pharmaceutical industry such as ePrescribing, the secondary use of healthcare data and core capability building for my staff.”

Steven E. Labkoff, MD, FACP, FACMI
Executive Director, Medical Strategy
Purdue Pharma

AMIA conferences serve a range of professions and informatics domains. Corporate Members have an opportunity to develop partnerships with AMIA to engage with members and attendees at each conference.

- AMIA Annual Symposium
- AMIA Clinical Informatics Conference
- AMIA Informatics Summit
Enhancing Leadership for the Profession

Serve the evolving needs of data science in healthcare with AMIA, the professional home for informaticians.

“IBM is committed to improving healthcare outcomes through the application of advanced cognitive computing technology, scientific research and subject matter expertise. AMIA has been the professional home for medical informatics for decades and our corporate membership allows us to be involved at the heart of this organization; to deepen our own critical thinking, learn about leading-edge developments and be a vibrant part of the evolution of the field.”

Eileen Koski, M.Phil.
Program Director, Health Data & Insights Center for Computational Health
IBM T. J. Watson Research Center

ACCESS global network of leading informaticians for company recruitment priorities including premier in-person opportunities during AMIA’s signature symposium and conferences.

- Industry Advisory Council
- Talent Sourcing & Recruiting
- Invitation-Only Lunch & Learn
- Roundtable Sessions

“The business of healthcare is changing. Participating and supporting AMIA allows IMO’s team to better serve our user community and deliver services that help healthcare organizations make the right decisions.”

Frank Naeymi-Rad, PhD, MD, MBA
Chief Executive Officer and Chairman of the Board
IMO

PROMOTE your company’s brand and high-quality services among today’s leaders in advancing health and healthcare.

- Branding & Event Exhibition
- Learning Showcases
- Marketing & Sales Promotion

Creating Impact in Health and Healthcare

Engage directly with legislators and access global innovation events with AMIA, the go-to thought leader and convener for the field.

**INFLUENCE** public policy by working with policymakers and healthcare stakeholders to promote how informatics can inform any major health policy decision.

- Health Informatics Public Policy Updates
- Hill Briefings & Annual Policy Invitational
- RFC & RFI Rapid Response Teams

“AMIA is a respected voice in Washington. Through our membership, we have the opportunity to include AMIA as one of the channels by which we provide feedback on new legislation.”

Janet Desroche
Senior Director, Client Service Division
MEDITECH

**CONNECT** with multidisciplinary, interprofessional stakeholders to expand your company’s efforts and address health and healthcare’s most pressing issues.

- AMIA Connect Online Community
- Mentor Match Programs
- Working Groups
- Member Network Spanning 90+ Expertise Areas and 5,400 Members

“The ability to tap into the collective expertise of the AMIA community has accelerated our product development efforts by 30 to 40 percent. We are able to benefit from building strong relationships with academic and industry leaders, which evolve into key partnerships.”

Jorge A. Caballero, MD
CEO
Distal
Take Engagement to the Next Level

AMIA Corporate Members are established and emerging leaders in care delivery, academia, health systems, and product research and development that engage informatics as a vital part of their operations.
